• Iowa State University

Bachelor of Science in Software Engineering

May 2022 – May 2026

Ames, IA

SKILLS

- **Technical:** C, Java, JavaScript, HTML/CSS, PHP, Python, React, React Native, Spring Boot, Git, MySQL, AWS (EC2, S3, DynamoDB), Postman, Netlify, Vite, SheetJS

EXPERIENCE

• Dinder

Community & Research Full-Stack Developer

Fall 2025 – Present

Ames, IA

- Implemented **user-to-group matching logic** based on **dietary preferences and friend connections** in a **React Native** app, delivering the core feature driving the app's value.
- Designed and documented **REST API endpoints** surfacing users' **dietary restrictions and physical accommodations** on group views, enabling the team to ship a more accessible user experience.

• Student Innovation Center

VR Lab Makerspace Assistant & Full-Stack Web DevOps

September 2023 – Present

Ames, IA

- Built the **Makerspace Tracker**, a production **PHP/MySQL** web app serving **6,000+ users**, replacing a fragmented check-in process with real-time usage tracking and **role-based access control**.
- Developed a **stats and analytics dashboard** surfacing attendance trends, giving staff actionable data for scheduling and resource allocation decisions.
- Built an **email and attendance export system** with filters for **makerspace location and date range**, outputting to **Excel** or clipboard eliminating manual data collection for staff.

PROJECTS

• NEAT (NSBE Event Attendance Tracker)

January 2026 – Present

- Built a **React PWA** to solve recurring miscommunication and task delegation failures in the NSBE chapter centralizing event info, task assignments, and attendance tracking in one platform for chapter leadership.
- Deployed via **Netlify** using **Vite** and **SheetJS**, delivering a no-install, browser-based tool accessible to any chapter member on any device.

• Cy-Hill

August 2024 – December 2024

- Architected a **Java/Spring Boot** multiplayer campus exploration game with **RESTful APIs** and **MySQL** to help new students learn Iowa State's campus environment delivering real-time player actions, dynamic scoring, and a live leaderboard across a **4-person Agile team**, demoed as a fully functional system at end of semester.

LEADERSHIP

• National Society of Black Engineers

Programs Chair

Fall 2025 – Present

- Planned and executed **30+ events** workshops, corporate networking sessions, and coordinating across student orgs, university departments, and industry sponsors, resulting in increased engagement and new corporate partnerships at the chapter and zone level.
- **Co-founded Ladies of NSBE** to fill the gap in women-focused engineering programming, building the track from scratch and establishing a recurring empowerment workshop series.

• The Cookout

Treasurer

Fall 2025 – Present

- Managed **budgets, reimbursements, and financial reporting** while securing cross-organizational collaborations, expanding cultural programming reach and increasing event attendance.

• Destination Iowa State

Team Leader

Fall 2023 – Fall 2025

- Led incoming freshmen through structured campus onboarding, delivering experience-based guidance that helped new students set realistic academic and social expectations from day one.
- Selected for a **peer advisory panel** to support fellow Team Leaders navigating difficult student situations in real time, recognized by program leadership for judgment and communication skills.
