• Iowa State University

Bachelor of Science in Software Engineering

May 2022 - May 2026

Ames, IA

SKILLS

- **Technical:** C, Java, JavaScript, HTML/CSS, PHP, Python, React, React Native, Spring Boot, Git, MySQL, AWS (EC2, S3, DynamoDB), Postman, Netlify, Vite, SheetJS

EXPERIENCE

• Dinder

Community & Research, Full-Stack Developer

Fall 2025 – Present

Ames, IA

- Developed full-stack features for a **React Native** group dining app matching users on dietary restrictions and accessibility needs, working across a 7-person **Agile** team.
- Contributed to **backend architecture** and **REST API** development using **Expo**, coordinating feature delivery through **Git-based collaboration** and Agile sprints.

• Student Innovation Center

Virtual Lab Makerspace Assistant | Full-Stack Web Developer & DevOps

September 2023 - Present

Ames, IA

- Developed and maintained **production web application** called the **Makerspace Tracker** serving over **6,000+ students and staff** across Iowa State campus-wide.
- Collaborated with a **9-person team** on a **scalable full-stack architecture** (PHP, MySQL) supporting **real-time usage tracking** and role-based access.

• Camp War Eagle

Camp Counselor

Summer 2024

Rogers, AR

- Mentored rotating groups of campers, fostering **teamwork**, **personal growth**, and community-building in a structured program environment.

PROJECTS

• Calendar Converter

Tools: React, JavaScript, Vite, SheetJS

January 2026 - Present

- Built in **React (JavaScript)**, parsing **Excel/CSV spreadsheets** via **SheetJS** into **.ics calendar files**
- Deployed as a **PWA via Netlify** using **Vite** as the build tool, with **smart column auto-detection** logic written in JavaScript handling Excel serial date conversion.

• Cy-Hill

Tools: Spring Boot, MySQL, Git, Java

August 2024 – December 2024

- Built **Java** with **Spring Boot**, **RESTful APIs** and **MySQL** managing **real-time player actions**, **dynamic scoring**, and a **live leaderboard** across a 4-person team using **Agile-style Git feature branching**.

• One Step

Tools: Java

December 2023 - August 2025

- Built in **Java** from scratch — implemented a **2D pixel-based adventure game** with **tile-based world mapping**, environmental interaction, and **responsive keyboard controls**.

LEADERSHIP

• National Society of Black Engineers

Program Chair

Fall 2025 – Present

- Planned and executed **30+ events** as Programs Chair, ranging from technical workshops and academic support to **fostering cross-organizational partnerships** to host inclusive, large-scale events.
- Co-founded **Ladies of NSBE** with the chapter secretary, establishing a dedicated space for women-focused events

• The Cookout

Treasurer

Fall 2025 – Present

- Manage **event budgets**, **reimbursements**, and **financial reporting** while securing cross-organizational collaborations that expanded cultural programming reach.

• Destination Iowa State

Team Leader

Fall 2023 – Fall 2025

- Led **orientation groups of incoming freshmen** through campus onboarding, delivering experience-based guidance on academic expectations and campus resources.
- Selected for a **peer advisory panel** for DIS Team Leaders, providing real-time guidance on navigating difficult or unfamiliar student situations.
